

Personal Teller Machine 10-Series

Providing Your Customers
with More Transaction
Options and Helping You
Integrate Exciting New
Applications and
Efficiencies into
Your Enterprise

Evolutionary Self-Service

The new 10-Series kiosk is designed for financial institutions working to transition mundane teller transactions to true self-service kiosks that integrate with their core system.

This move enables a full complement of teller transactions and is aligned with the wave of digital transformation initiatives to create the modern branch, with a focus on exceptional client experience.
