

## Personal Teller Machine Series 8

Providing Your Customers with  
More Transaction Options and  
Helping You Integrate Exciting  
New Applications and Efficien-  
cies into Your Enterprise

## Source Technologies' Series 8 Kiosk

Self-Service banking in the branch has become an integral part of branch transformation. As financial institutions evolve branch staff to more consultative roles, the use of technology is critical to automate the transactions historically handled by tellers.

When paired with software from one of our preferred partners, the Personal Teller Machine from Source Technologies communicates directly with the core platform, enabling your clients to conduct 90% of the transactions traditionally handled by a teller. It's the self-service option that allows consumers to decide how they want to bank in the branch.

At just over 1 sq. ft, this solution is the smallest footprint in the banking kiosk industry and can be placed almost anywhere in the branch, no construction required.

- 1 19.5" Capacitance Touch Screen
- 2 Camera
- 3 NFC Reader
- 4 Hybrid Magstripe/ EMV Card Reader
- 5 Omni-directional Barcode Imager
- 6 Encrypted PCI-Compliant PIN Pad
- 7 Thermal Receipt Printer
- 8 MICR Check Scanner with Front/ Back Imager
- 9 3000 Note Bulk Cash Acceptor
- 10 2500 Note Cash Dispenser

Low Entry  
Cost

Small  
Footprint

## Series 8 Specifications

19.5" Ultra HD Monitor with Integrated Touchscreen & Privacy Filter	19.5" TFT-LCD Panel, 1080 x 1920 Resolution Touchscreen - Projective Capacitance Technology Touchscreen Cover Glass 2.8mm Privacy Filter 60.0° ± 10.0°
Computing System	INTEL i5 (Skylake) 6MB 2.3GHz 35W, RAM 8GB DDR4, Hard Drive, Solid State, 128GB, Long Life
Wireless Module	Wi-Fi Card Module, 802.11 a/b/g/n, 2.4/5GHz DUAL BAN
Operating System	Windows 10
Camera	Resolution 5MP, Auto Focus
Bulk Note Cash Acceptor	Bill Cassette Capacity - manage up to 3000 Notes Bulk Note - accepts 25 note bundle 6 Denominations
Cash Dispensor	2500 Note Capacity 6 Denominations
Safe	Day safe
Check Scanner	Single Document Scan MICR Character Reader: CMC7, E13B Image Resolution - 200 x 200 dpi Gray Level - 8 bit @ 300 dpi Stacker - 150-200 Checks (optional)
Receipt Printer	Print Technology - Direct Thermal Print Width - 3" Print Resolution - 203 dpi Print Speed - 7ips Max Media - Approx. 230' on a 2.8" Diameter Roll Cutting Method - Partial Cut
Card Reader	Hybrid Magnetic Stripe/EMV Card Reader EMV Ver4.3 Approved
Pin Pad	Encrypted PIN Pad PCI-Compliant, PCI-PTS 3.x Certified Key Management: Master/Session, DUKPT Encryption Algorithms: AES, DES, and TDES for PIN Encryption
Imager	Omni-Directional Imager - ID and Barcode Scanning
NFC	NFC Contactless Reader Supporting: ApplePay, Visa, MasterCard, Amex, and others
Kiosk Controller	Control of Guidance Lights Monitor Vitals of Kiosk System Including: Temperature/Humidity, Security Switches, Receipt Paper Low, Tamper Via Internal Accelerometer
UPS	700 VA Output Power (utilize to complete current transaction if possible and provide a controlled shutdown of the system)
Approach Sensor	Adjustable Sensor to Detect and Wake Up Transaction System When a Customer Approaches the Device (distance and walk-by traffic filter configurable)
Keyboard	USB-Internal (for maintenance purposes only)
Dimensions	H 51.18", W 15.9", D 15.6"
Weight	250 lbs
